## SUMMARY

---

Focused quick-learning student looking to commence my career by working for an esteemed organization, which would be rewarding in terms of learning experience and contribute to organizational and personal growth. Strong ability to communicate with clients and ability to express ideas clearly and concisely.

## EDUCATION

---

- **JB Institute of Engineering and Technology**, Bachelor of Technology Expected 2024  
CGPA: 7.7
- **Government Polytechnic College**, Diploma 2018 - 2021  
CGPA: 8.36
- **Vivekananda High School**, Secondary School 2018  
Grade: 9.3

## EXPERIENCE

---

**Web Developer(Internship)** Nov 2022 - Jan 2023  
Coincent

- Coincent offered a internship in association with UDGM IIT GUWAHATI University in Web Development.
- Coincent provided a data-set on their social media campaigns.
- We as a Web developer team performed and build a job portal project.

**Cloud Computing(Internship)** May 2022 - Jun 2022  
V CUBE Software Solutions

- I can honestly say that the time I spent interning with VCUBE Software Solutions resulted in an exponential growth in my knowledge. Not only did I gain theoretical knowledge, but I also created hands-on models in various domains of cloud computing which boosted my skills overall.

## PROJECTS

---

### News Paper Reader System.

- The news extraction can be applied on news articles in the form of monolingual or multilingual.
- news aggregation is the most important method for crawling and collecting events based on topics or categorization.
- This paper investigates the challenges and issues that relate to online news research.

### Dual-Server Public Key Encryption with Keyword Search for Secure Cloud Storage.

- Searchable encryption is of increasing interest for protecting the data privacy in secure searchable cloud storage.
- We investigate the security of a well-known cryptographic primitive, namely, public key encryption with keyword search (PEKS) which is very useful in many applications of cloud storage.
- Unfortunately, it has been shown that the traditional PEKS framework suffers from an inherent insecurity called inside keyword guessing attack (KGA) launched by the malicious server. To address this security vulnerability, we propose a new PEKS framework named dual-server PEKS (DS-PEKS).

### Job Portal.

- The aim is to automate its existing manual system by the help of computerized equipments and full-fledged computer software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same.

## **CERTIFICATIONS**

---

- Prompt Engineering for Chatgpt from Coursera.
- TCS ION Career Edge - Young Professional.
- Microsoft Power Platform Fundamentals from MICROSOFT
- Microsoft Azure Fundamentals: cloud concepts from MICROSOFT
- Getting Started with DevOps on AWS.
- Web Development from coincent
- Cloud Computing from NPTEL

## **TECHNICAL SKILLS**

---

- Java Programming
- Python Programming
- Linux Programming
- HTML5, CSS
- Structured Query Language
- Database Management Systems
- Operating Systems
- Computer Networks

## **PROGRAMMING CONCEPTS**

---

- Data Structures and Algorithms
- Object-Oriented Programming (OOPs)

## **VOLUNTEER AND COMMUNITY INVOLVEMENT**

---

### **National Service Scheme**

- It is a scheme which develops the personality and character of the student youth through voluntary community service. 'Education through Service' is the purpose of the NSS. I contributed as a volunteer in this scheme.
